LIS 161 FINAL PROJECT (2ND SEM 2022-2023) DOCUMENTATION

WEBPAGE FOR BTS MEMBERS

Github link: <https://github.com/kqarucan/LIS161-PROJECT>
Pythonanywhere link: <http://armyverse.pythonanywhere.com/>

We wanted our webpage to be a one-stop directory for the popular K-pop group BTS! The webpage should display the group's members, and any information about them such as their full name, stage name, birthday, etc. The webpage can also be edited by the users, they can edit any information about the members or even delete members if they want to. There's also a page that users can go to, where they can register themselves as part of BTS. The following are the running images of the webpage, due note that these screenshots of the webpage are executed through the VS Code software, and during the time of capturing these images are not yet deployed. After some time it was successfully deployed on Pythonanywhere.

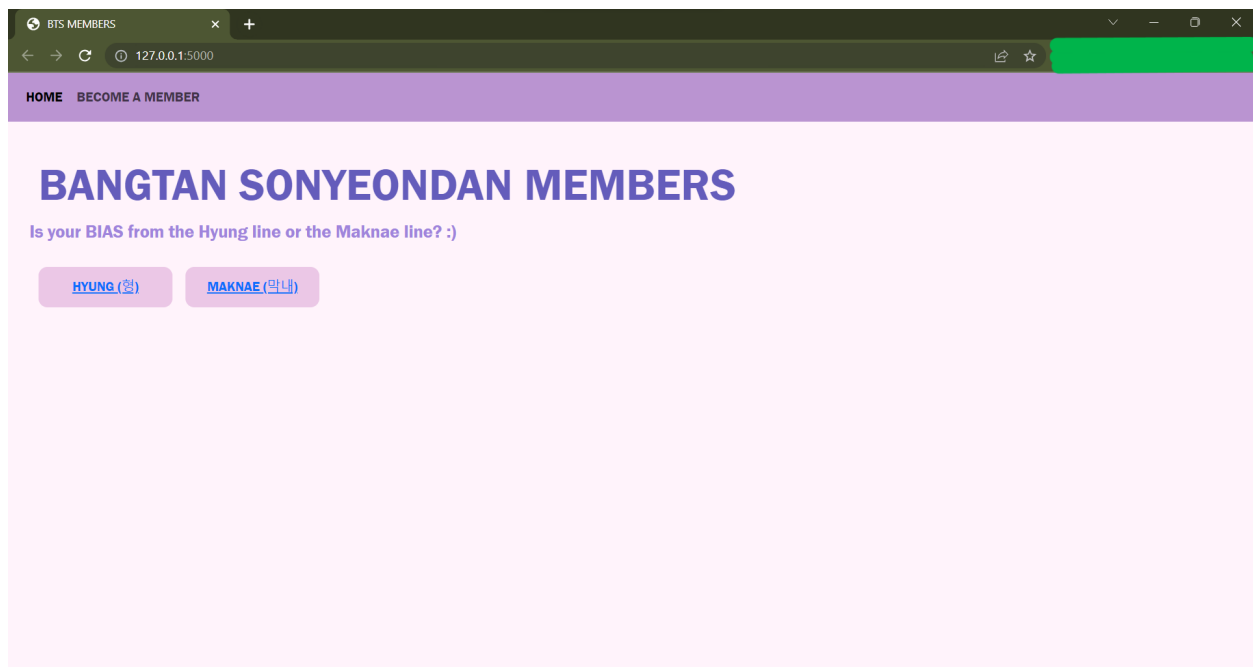

Figure 1. This is the web page's front interface. Where it shows the navigation bar as well as the two links that will redirect the users to their respective pages.

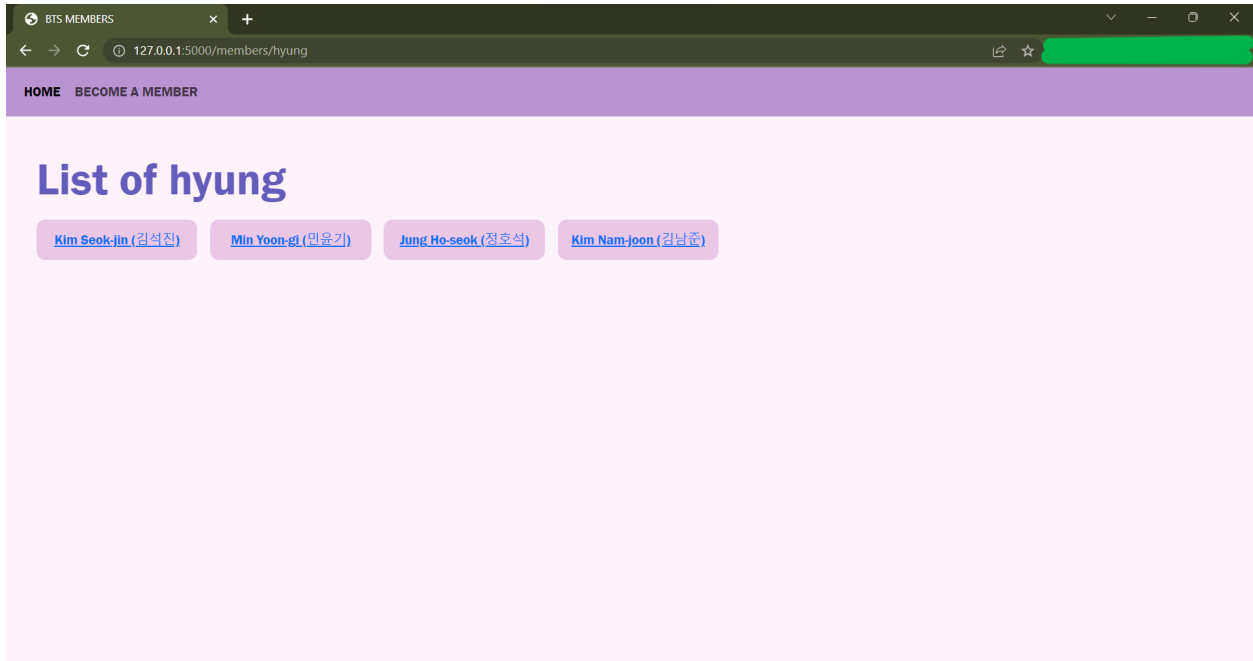

Figure 2. This is the web page's "List of Hyung" interface. After clicking on the "Hyung" button from the front page the user will be redirected to this page.

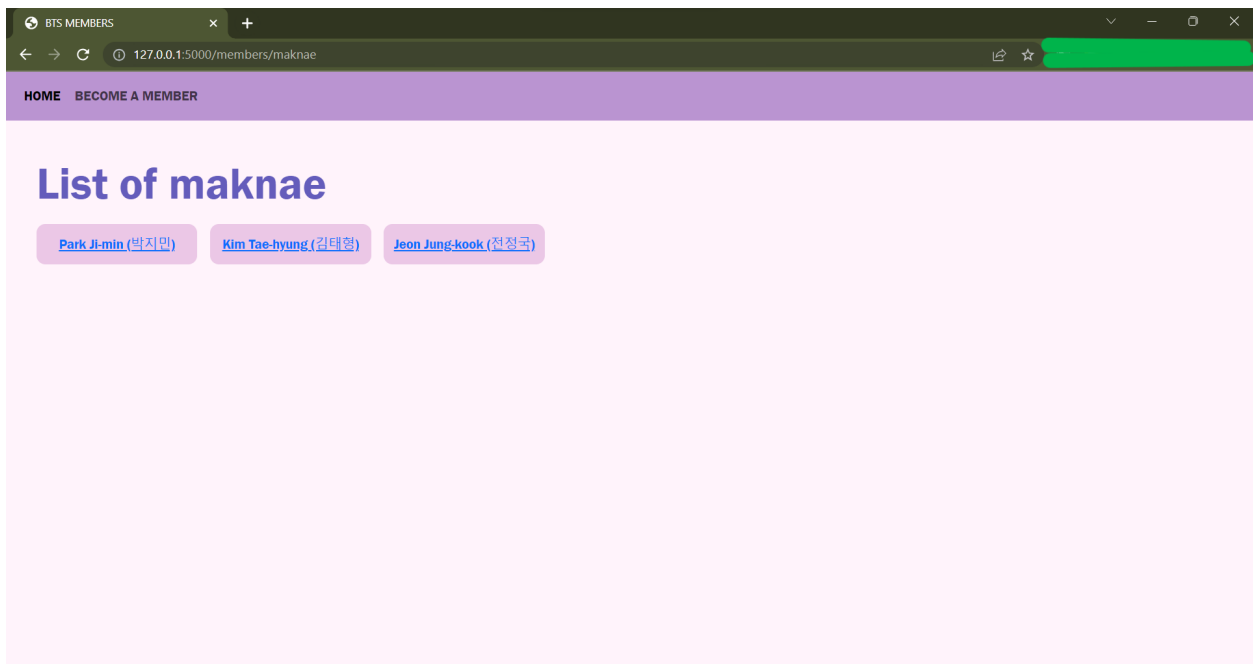

Figure 3. This is the web page's "List of Maknae" interface. After clicking on the "Maknae" button the user will be redirected to this page.

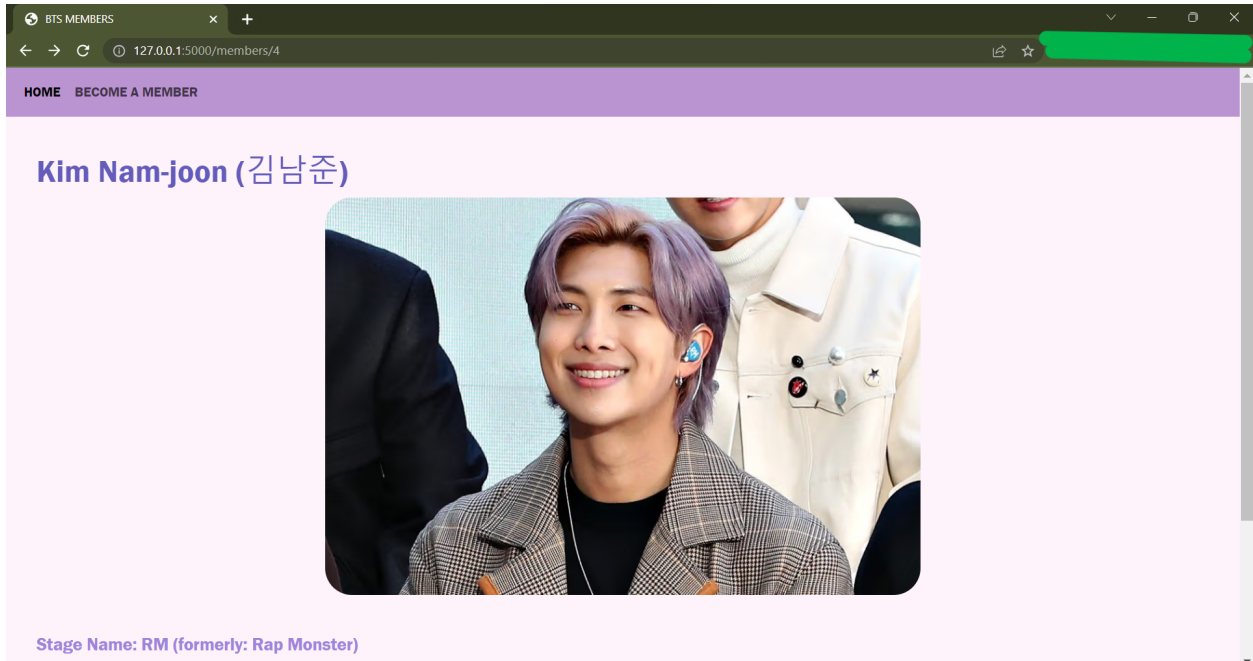

Figure 4. After clicking on any of the links from either the “List of Hyung” page or “List of Maknae” page the user will be redirected to the member’s page, where the user can see one of the BTS members’ information such as full name, stage name, birthday, birthplace, etc.

 A screenshot of the same web browser, but now showing a form titled 'Wanna change something?' in blue text. The form has several input fields with labels: 'Type of Member, Hyung or Maknae?:' (empty), 'Line Type: Hyung' (filled), 'Name of Member: Kim Nam-joon (김남준)' (filled), 'Stage Name: RM (formerly: Rap Monste)' (filled), 'Birthday: September 12, 1994' (filled), 'Place of Birth: Ilsan, South Korea' (filled), 'Position: Main Rapper' (filled), 'Image URL: https://image-cdn.hypb.st' (filled), and 'Fun fact about them that you know!' (empty). Below the last field is a text area with the placeholder 'Type some here :)'.

Figure 4. If the user wanted to modify, change or update one of the member’s information they can click on the “Edit” button below the member’s page from the last screenshot then they will be redirected to the page’s “Update” part of the information.

BTS MEMBERS
